NEW BOND ELECTION IS CALLED

"Our Town"

by J. B. WHITE

This is the season of the year when doors and windows are kept tightly closed, when homes and offices are kept airtight and overheated, when the sick multiply and the death rate climbs.

Winter months show an increase in the mortality rate of almost 25 per cent over the summer rate. And the drop in deaths in the spring as soon as windows open and fresh air pours in is so marked that the relation of the two is unmistakable.

Stagnant air, dry air and dirty air do their deadly work with less interference in winter than in warm weather. Air for human lungs should have a humidity of about 48 per cent but artificially heated ozone seldom comes up to that level. Because dry air is not as warm to the body as that with a proper humidity, poorly ventilated homes and offices are invariably overheated, creating another menace to human health.

More people are killed by foul air than by cold air, the latter being so rare as still to command front page space. But deaths from foul air are so common that they are reported due to "natural causes."

The American home and office are wonderful institutions, with their control heating systems, electrical illumination and appliances, convenience and comfort. And yet in winter they are a little healthier than a prison. They have everything but healthful air. Will the engineers, architects, builders, invention and mass production bring within the reach of every home owner the perfect heating and ventiiating system?

Booth Tarkington, who has given so much enjoyment to the public, becomes for the moment a prophet of gloom. He predicts the time, not far away, when the novel and poem will become extinct as literary forms, and the bulk of our publications will be reference works of scientific treatises.

Being in the trade, Mr. Tarkington has given its future more thought than we in the laity, and still he leaves us unconvinced. Our own feeling is that the great story teller will always have an audience.

If the novel is declining it is quite probable the fault lies not with the form but with novelists. The fault we principally find with current practitioners of the art is that the preoccupations of all of them, men and women alike, is too exclusively feminine. There have been and are competent women novelists, but when virtually all fiction is concerned with the details of social intercourse its appeal and its public are limited at once. If the art now needs one thing sorely it is substance, the masculinity of the early Kipling, a message more nearly universal than is offered in anything now being composed.

Our complainant sees television and the talkies talking over the prerogatives of the novelist. For our part we see any truly great story teller reaching his public through the medium of his choice. If the novel suits his purpose he need have no fear that his message will be undelivered because the addressee can not be found.

It was in an early century and in a little world that the first message of the church was quietly disseminated to a united body.

That gospel to the Gentiles faced conditions not unlike those of today. The religions of ancient Greece and Rome were then encountering an incredulity, communicated by the philosopher to the man of pleasure or business.

Ancient religions are undergoing modifications and in some regions dissolution, as scientific and commercial developments alter the current of men's thought. But while there is a widespreading materialism, there

In asking for another term Mayor Smith submits his record of service to the people. His administraton while lacking in some of the essentials of harmony with the board of Aldermen and other officials, has been outstanding in many ways. TO INCREASE TAX VALUES

A second bond electon to pay for the new vocational education building and gymnasium has been ordered for Tuesday February 11. The previous election was held void because the city had already levied its limit in taxes and because it sought to levy a school tax for bond purposes.

The bonds to be voted on February 11 will be city bonds and are to be retired out of funds from an increase in property renditions.

The increase in property values will be about $350,000 and this will raise $2400 annually and interest. The increase will be negligible and the council says this is a very economical method of raising the money.

If the bonds carry when the board of equalization meets the valuation of city property will be increased to pay the annual requirements for the bonds. The city council ordered the election at its meeting Tuesday night.

Power Co. Begins Rural Expansion

Texas Power & Light Company extending its lines to include in electric service small communities and rural homes, has completed installation of equipment to serve Minerva, seven miles south of Cameron.

F. E. Woodruff, local district manager ,and engineer who spent years of service in the construction end of the power industry, said the crew of men completed the line Saturday night and finished in the big sleet and snow storm that laid a mantle of white over the county.

The company has 24 customers in Minerva. The power lines of the refinery and all distribution equipment was purchased and torn down and new equipment placed.

Texas Power & Light Company has been engaged in rural extension service for about 10 years and is far ahead of the recent government program to encourage rural electrification.

The company, said Mr. Woodruff, plans further rural development in this county.

Only a short distance south of Minerva the company owns and operates a great sub-station for keeping peak electric energy for its high lines south to Taylor and Austin. The lines come from the plant at Trinidad.

The company purchased a large tract of land in that section of the county and visualized electric development long before it acquired the Cameron franchise.

Miss Strange showed us how to graft grapes, plant tomatoes and cut cuttings which was very interesting to us.

Our meeting will be held at LiHie Mae Shepard, January 30.

For nice red tomato juice the Mariglobe is a good variety to plant. It is a very good tomato because it is nice dark red with lots of flesh and also holds its color nicely, and also wilt resistant.

The Break O' Day tomato may be planted for early table use. It bears early. It isn't very good for canning.

J. R. WILLIAMS

Jefferson Ramsey Williams, almost 90, a much loved and highly appreciated citizen of Buckholts, was claimed by death at his home Monday morning January 20 at 10 o'clock. "Uncle Dock," as he was called by many, had been confined to his bed most of the time for some months but grew worse ten days ago. He was born in Blunt county, Tennessee, March 26, 1846. Came to Texas in 1853. Enlisted in the Confederate army February 1863, belonged to Taylor Battalion, Company B, 8th 1st Texas Cavalry. Was captured at Williamsport, La. August 8, 1864, taken as prisoner to Elmira, New York, remaining there until close of war. He was married to Miss Emily Craddock of Rogers, daughter of Mr. and Mrs. John Craddock, September 17, 1874. To this union were born 7 children, all of whom survive as follows: John Williams of Splawn, Charlie and Grover Williams of Buckholts, Mrs. Grady Brown, Temple ad Misses Nettie, Willie and Minnie Williams of Buckholts. Mrs. Williams wife of deceased and mother of these children, died thirty-eight years ago. Four grandchildren: Misses Charlie Frances and Johnie Williams, Mrs. Harvey Yoe of Buckholts and Garland Brown of Temple also survive him also a number of nieces and nephews who do not live nearby. Mr. Williams united with the Baptist church in 1876, and was a deacon in this church at the time of his passing. He has lived in Bell and Milam counties since 1880. Moved from his farm in the Bryant Station community, to Buckholts in 1918, where he and three daughters, Misses Nettie, Willie and Minnie have since resided, these daughters giving him loving and tender care in his declining years.

Laxative combination folks know is trustworthy

The confidence thousands of parents have in good, old reliable, powdered Thedford's Black-Draught has prompted them to get the new Syrup of Black-Draught for their children. The grown folks stick to the powdered Black-Draught; the youngsters probably will prefer it when they outgrow their childish love of sweets. Mrs. C. W. Adams, of Murray, Ky., writes: "I have used Thedford's Black-Draught (powder) about thirteen years, taking it for biliousness. Black-Draught acts well and I am always pleased with the results. I wanted a good, reliable laxative for my children. I have found Syrup of Black-Draught to be just that."

Bonds Voided

The plague of official errors struck with grave consequences in the operation of the city government last week when it was discovered the recent bonds voted by the people cannot be issued on a tax increase because the city had already reached constitutional limit on taxation.

It appears the council did not know this condition existed when it ordered the election. Many citizens knew this but felt the bonds were required to be voted to placate the federal government and were to be financed from a restricted budget under the present limit of tax gathering.

The bonds were voted for the new vocational education building at Yoe High School. They cannot be issued. The contract has been let contingent upon the bonds being issued.

What means the city would find to overcome this error was not stated. It was known however that a few avenues are still open, one of which would be to finance the project from the general fund of the city by cutting down expenses.

The first official error of recent weeks was the wet and dry poll ballot which was declared illegal after the drys won a brief victory in the ballot fest that turned back the wets who were trying to overthrow the 17 year old prohibition rule. The county now relapses to its former state of thriving bootlegging industry with plenty of illegal liquor.

Cameron's city government operates under the general laws of Texas and has no special charter. It controls and operates the school system through a board authorized by the council. For the information of the city's official family, it was pointed out, the total tax that can be levied for municipal purposes is $1.50 and for schools and city combined a total not to exceed $2.25.

Extending the city limits or increasing property values would bring more revenue. Territory cannot be annexed except by vote of those affected and property values increased might not meet with popular approval. It was pointed out by some. The most feasable route would be a restricted budget on common operation of the government and allotment to a fund out of which to pay warrants or other evidences of indebtedness other than bonds.

EDITORIAL

How do you like the movies that are being shown lately? They have taken a historic and literary trend and many of them are really worth seeing. Such shows as "So Red the Rose" and "Tale of Two Cities" are made doubly interesting by the fact that we have all heard of the books from which they were taken, and many of us have read them. Many good books are being filmed, and you should secure them from the library if possible and read them. You will get more enjoyment from the show if you do so. Conversely, a book is much more interesting if you have seen the movie. Historic films have increased the student's interest in the subject and made it a pleasant study.

Mrs. Posey (teacher): How is it that you are late for school today Joe Ed?

Joe Ed: I came to a sign that read: School ahead; go slow.

Joe N.—My motto is: What is worth doing is worth doing well.

Allen H.—I notice that when you made a fool of yourself.

Miss Pitts (teacher, to boy sitting idly in school during writing time) Henry why are you not writing?

Louis K.: I ain't got no pen.

Miss Pitts: Where's your grammar?

Questions on Farm Debt Settlement are Answered

Questions about the Farm Debt Adjustment Division of Resettlement Administration being asked by farmers are of such similarity that John B. Henderson, committeeman in this community, has asked the Herald to publish answers to a number of them. Other members of the committee include Judge Ed Gunn, Rockdale and W. B. Elliott, Thorndale.

The questions and their answers follow:

Q. What legal status does the committee have?

A. None. It cannot force either the debtor or the creditor to accept any suggestions.

Q. Can it be effective without legal status?

A. In many financial disagreements, as in life, most of the trouble is inability to see the other side of the question. The committee can show the creditor how he will profit by a new arrangement, and it can show the farmer how he should arrange his financial affairs to warrant further credit or an extension of time. This committee has studied finance and can also give farmers suggestions as to where to refinance to greater advantage.

Q. Will it help any farmer who goes to it?

A. The committee will advise any farmer who means business, and who will work with it honestly and carry through until the difficult task is finished.

Q. How long will it take a farmer to get refinanced when he is in immediate danger of losing his property?

A. This depends on the situation. However, the committee is usually able to get the creditors to postpone litigation to allow the farmer an opportunity to secure financial assistance from some other source. Where the case warrants such drastic action, the committee may suggest that the farmer seek legal protection.

Q. Will the committee try to refinance and farmer who goes to it?

A. This committee does not refinance any one. It suggests ways farmers may secure refinancing from other agencies, including private firms, the Federal Land Bank, and the Resettlement Administration.

Q. Will it give this information to farmers who do not need such complete assistance?

A. Yes. Any farmer who needs to know more about financing but does not need the committee's personal help will receive the same consideration as other farmers.

Q. Will the committee consider a creditor's case?

A. Yes. Creditors who hold farm loans and are not receiving due consideration by the farmer-debtor are urged to bring their problems to the committee.

Q. What does this cost?

A. Well, it costs the farmer and creditor nothing but their time and effort, and the committeemen receive only a small sum from the government to apply on expenses, no salhaving been provided for.

Q. Have these committees really accomplished anything?

A. In Texas and Oklahoma alone, more than 14,000 foreclosures have been avoided, representing $40,000,000 worth of property.

Q. When should the committeemen be contacted?

A. Any time, at their meetings or before. The committee usually discuss the cases brought to it at the meetings and prefers that one of the members know the farmer's story before the meeting.

Q. Does the committee have a regular meeting place and time?

A. Yes, the place is Court House and the time is First Tuesday each month at 2 o'clock P. M.

Twelve guests enjoyed a delightful birthday party Monday evening at the home of W. J. Watson, 819 North Houston Street, when Mrs. H. C. McKee surprised her daughter, Mrs. Watson, with a birthday party at her home.

MOTHER! don't experiment with your Child's Cold

Often, "mere colds" have serious consequences. It is dangerous to neglect a cold—equally dangerous to experiment with half-way measures.

Feel safe! Use Vicks VapoRub—the proved *external* method of treating colds. No risks of constant internal "dosing", which so often upsets delicate digestions and lowers resistance when most needed.

DOUBLE DIRECT ACTION

Just rubbed on at bedtime, VapoRub fights a cold *direct—two ways at once*—by stimulation and inhalation. This combined poultice-vapor action loosens phlegm—soothes irritated membranes—eases difficult breathing—helps break congestion. Often by morning the worst of the cold is over.

What is the yardstick for a cigarette...

Take mildness for one thing—how does it measure up for mildness?

Chesterfields are *milder*—not flat or insipid, of course, but with a pleasing flavor.

Then take taste for another thing—does it have *plenty* of taste?

Chesterfields taste *better*—not strong but just right.

that's my yardstick for a cigarette.

THE DOCTORS ARE RIGHT

Women should take only liquid laxatives

Many believe any laxative they might take only makes constipation worse. And that isn't true.

Do what doctors do to relieve this condition. They use a *liquid*

laxative, and keep reducing the dose until the bowels need no help at all.

Reduced dosage is the secret of aiding Nature in restoring regularity. You must use a little less laxative each time, and that's why your laxative should be in liquid form. A liquid dose can be regulated to the drop.

The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara — both *natural* laxatives that form no habit even with children. Syrup Pepsin is the nicest tasting, nicest acting laxative you ever tried.

CITY POLL TAX REQUIRED

To be a qualified voter, if you live inside the City of Cameron you must have a City Poll Tax receipt.

There has been some confusion. The City Council levied a poll tax for 1935 payment and this must be obtained from the City Tax Collector if you expect to vote in the City Primary in February or the General Primary in July or any election.

Voters must have both a City Poll Tax Receipt and a County and State Receipt to be qualified to vote within the City Limits of Cameron.

See the City Tax Collector at Once and get your 1936 Voting Poll Tax.

Cameron Hunters Entertain Noted Texas Writer In LaSalle Deer Country When J. Frank Dobie Announces Himself in A Parting Hand Shake

W. B. Denson recently had a pleasant experience on a deer hunt in LaSalle County.

Around the noon hour a stranger rode into camp, walked into the kitchen and asked for coffee. Thinking him a lone rider of the brush country, and remembering the range code, Mr. Denson set about to accommodate his weather worn guest with big boots and sombrerro.

Over in the pot was some tough stewed venison. Jinx said it had weathered the appetite of the hungry camp mob. "Tougher it is the better I like it," said the stranger, and within due time the pot was cleaned.

An old pipe, with a part of the bowl burned away from long use was unsheathed by the stranger and soon the camp house was reeking with its odor.

They talked of deer hunting and soon the guest was entertaining them with strange tales of the cow trail days in the brush, and hunting yarns of old. In time he arose and stretched a bit from the long lounge against the cabin wall and prepared to take leave.

The likeable stranger allowed it would be good etiquette to introduce himself, and so the good hosts of the hunting lodge met J. Frank Dobie, noted author and master of tales of the brush country. "He held us spellbound with hi sstories and knowledge of the range country," said Jinx Denson, "and it was plain to all of us he was no ordinary cow hand riding the range."

The Cameron hunters were on the old Dobie Ranch in LaSalle county 28 miles from Cotulla in the heart of the deer country.

1935 Gave City New Fruit And Vegetable Firm

One of the better business developments in 1935 and gave the city further advantages was the establishment of a wholesale fruit and vegetable market by Hayden Lawrence of the Cameron Ice & Cold Storage Company.

Mr. Lawrence now stocks fruits and vegetables and is engaging in a wholesale business utilizing the advantages of great storage vaults at the plant to keep the mechandise in good order and under the most sanitary conditions.

Fruits, especially the citrus fruits of the lower Rio Grande Valley are brought in and sold in large quantities. Mr. Lawrence is one of Cameron's younger progressive business men.

Attorney General Holds There Must Be A New School Bond Election

On December 27 the Citizens of Cameron voted in favor of the issuance of $36,000 in bonds to finance the building of a Physical Education and Vocational Building. When the proposition was submitted to the Attorney General for his approval, which is required by law, he held that because Cameron was not an independent school district it would be necessary to hold another election in order to strictly comply with the law. The effect of his ruling was that the above election was void. That these bonds must be paid out of the general fund of the city and not out of the school tax. Under the constitution the city's levy for the general fund is limited to one dollar and fifty cents and due to this fact it will be necessary to raise the values on the taxable property within the city limits approximately 10 per cent if this election carries. This will have somewhat the same effect as that achieved by the previous election except that the bonds will be paid out of the general fund of the city instead of the school fund as originally intended.

The Man Who Knows

Whether the Remedy You are taking for Headaches, Neuralgia or Rheumatism Pains is SAFE is Your Doctor. Ask Him

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches; or the pains of rheumatism, neuritis or neuralgia, ask your *doctor* what he thinks about it — in comparison with Genuine Bayer Aspirin.

We say this because, before the discovery of Bayer Aspirin, most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of Bayer Aspirin largely changed medical practice.

Countless thousands of people who have taken Bayer Aspirin year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: Genuine Bayer Aspirin is rated *among the fastest methods yet discovered* for the relief of headaches and all common pains . . . and *safe* for the average person to take regularly.

You can get real Bayer Aspirin at *any* drug store — simply by never asking for it by the name "aspirin" alone, but always saying BAYER ASPIRIN when you buy.

In asking for reelection Mr. Terry pledges the people his continued good efforts to serve them well and at all times will act for the welfare of the entire people with due regard for the taxpayers. Friends over the city have pledged their support to Mr. Terry and are glad to know that he is again to ask for re-election.

During his service in office he has been attentive to duty and as a civic leader has merited in a big way the esteem of the people. Among the major contributions was his leadership in building the lighted field for the Yoemen.

on his citizenship is unnecessary. He heads one of the largest mercantile firms in Central Texas, the Green & Boedeker business in Cameron and also owns the Leland Green Funeral Home.

For many years he was associated with his brother C. N. Green at the Green Bros. Store in Cameron and has been an active business man, knowing the needs of the City.

Two years ago Mr. Green was called to an important post in the city government and has been serving as alderman, giving his time and understanding of the city's business.

While he did not announce a platform on which he would ask the suffrage of the people, he believes that what the city needs now is co-operation and if elected he will bring to the council a ground upon which all may unite for a better and bigger city.

Mr. Green would apply business principles to the operation of the government and in so doing would save the tax payers money and give them full return of value on the funds needed for the city's business.

Mr. Green is past president of the Chamber of Commerce and for years has been actively identified with city progress.

Responding to many who have appealed to him to offer for this place at the head of the government, Mr. Green asks that his friends throughout the city become active in his behalf and if there be anyone among them he cannot see personally, takes this method of asking for their support.

In entering the race he pledges the people that his time and energy will be given unreservedly to a better administration of the city's affairs with justice to all and for the interests of all the people.

of this office and the need for an efficient officer well versed in the requirements, appointed Mr. Tyson to the place. He has served only a short time in this office.

Some weeks ago the city secretary prepared and issued a financial statement of the annual condition of the government. Mr. Tyson was commended generally both by the council and citizens for this good statement. Friends point out that the council made no error when he was called to the post.

Mr. Tyson voluntarily retired from the office of city assessor and collector in April, 1934.

In 1934 when the Federal Government made loans to the city for construction of the new sewer system, the federal authorities required the government here to name an accountant to work in conjunction with the federal examiners on the project. Mr. Tyson was immediately appointed and completed the work several months ago.

Mr. Tyson asks your vote and support based upon his qualifications for this office and will greatly appreciate anything his friends may do in his behalf. He plans to see and talk with each voter, but in case there be one with whom he cannot talk, due to official duties and lack of time, this announcement is a plea for their vote on February 4th.

"If you vote for me, you will be glad of it, and so will I."

Mr. Sider asks his friends and the people to lend their support, assuring all in advance their interest in his behalf will be greatly appreciated.
